

S&S 107" Big Bore Kits

Fits 07-14 big twin (except 14 Twin-Cooled® models). The kit comes with S&S cylinders, gaskets, Piston set with rings, wristpins and wristpin clips

- Largest bore (3.937") that can be fit in a stock engine case
- Cylinder and piston kits make going to the maximum bores size easy – no machining required
- Stock engine height is maintained
- 11 fin cylinder design closely resembles OEM shape and come pre-finished – ready to install
- Increased fin area for better heat dissipation
- Centrifugal cast, gray iron liner features 40,000 psi tensile strength – superior wear and performance
- CP Pistons are recognized
